Case Story of Chittibai: Symbol of Hope and Resilience

Chitti, a bright 8th grader from Vadicherla village in Vikarabad district, faced a life-threatening challenge from a young age due to a congenital heart defect. Despite her condition, her family, struggling with financial hardships, couldn't afford the surgery she desperately needed. Her father, Gopal, works as a construction laborer, and her mother, Kavita, stays home to care for Chitti and her three siblings. Though they sought help at various hospitals, they were turned away due to the high costs.

However, hope came when they approached Rainbow Children's Heart Institute, where doctors recommended immediate surgery for her VSD. The family could only contribute Rs. 30,000, but through the generous support of the Pure Little Hearts Foundation (PLHF), a donation of Rs. 2,00,000 from Dr. Chava Sathyanarayana, and an additional Rs. 50,000 from Dr. K Nageshwara Rao and the hospital's discounts, the surgery was made possible. Chitti underwent a successful operation on November 10, 2024.

Grateful for the support, Chitti, who had long struggled with her heart condition and limited hope for her future, now has a renewed sense of life. Her gratitude was beautifully expressed through a letter with artwork. On the road to recovery, Chitti aspires to become a doctor and dreams of serving the poor and needy, inspired by the kindness she received.

Chittibai along with mother and grandfather at RCHI on the day of discharge (left) and letter from child (right)
